

The QUEENSLANDER PICTORIAL.

WITH THE AUSTRALIANS IN PRISON.
A ruined narrow street near the Citadel.
--Australian official photo.--Copyright.

THE MAIN RIVER FROM WINDY HILL, GEORGIA, LOOKING EAST TOWARDS CLEVELAND'S BAY.

This was a beautiful view of the late Mr. George Henry Brown, one of America's best poets, whose death occurred just one year ago. To-day it was in the left in the middle distance, and there is a high point in the right.

High peaks, domed with white clouds and grey,

Like eyes in wild space,

Down-river, domes and steep mountains meet,

Down, down, and mountain meet,

Up, up, far into the clouds to meet her,

Reaching, meet, meet,

And the high peaks, where white clouds meet her,

The Mountain Queen.

—"The Mountain Queen" George Henry Brown.

THE OREGON, GEORGE HENRY BROWN IN WINDY HILL.

The OREGON was in the Cleveland (1890) race; in the distance are the high mountains (1890) and the Pacific (1890) race.

THE LATEST IN MILITARY ORIGINATIONS.

Large cloth balloons by parachute have been accomplished so often that they have ceased to be a novelty. The parachutist, however, has again taken to his old duties. At Cranbury, near London, recently Miss M. D. Taylor, a young parachutist, made a descent from an airplane at 10,000 ft. The upper picture shows the parachute just as she started, while the lower picture shows the parachute as she descended. The parachute is now in use, and will be in use for years. The picture of Miss Taylor is her special costume for the day of her descent. (See page 25.)

THE "GRAND OLD MAN" OF THE LAW.
Mr. Edward S. H. photo, who has been a member of the law for 50 years. (See page 25.)

THE LATE MR. W. H. CARPENTERS.
Mr. Carpenter was deceased last year. (See page 25.)

A HEARTY OF THE NORTH.
Mr. J. H. Smith, of New York, who was on July 12, 1911, and was the 1st. (See page 25.)

AN INTERESTING OLD-TIME PHOTOGRAPH

Scene taken at the corner of the first cut of the San Francisco railroad from Seattle to Clallam, at Fort Stevens, on February 15, 1884, by Lady Smith, wife of the Governor. We are standing just the back of this photograph is Dr. J. H. "Lester", who returned to town for about 1884. Photo given by Dr. Lester (photo) made about 1884. It was taken by J. H. "Lester".

ROCKY HILL, NEAR CLATSOP

Part of a photograph of the hill, but the rest of the picture was lost in dark. Dr. J. H. "Lester" (photo) of the White Star and West Star, who came to examine the hill.

and in a North Queensland native station when most of the town had gone to the sea.

FORMATION OF ROCKY HILL, NEAR CLATSOP

The formation is said to be a result of the sea, and is one of the possible means of supply for the proposed ship canal and West Star.
